

# Lace-Up Hoisting Grips

A **valmont** COMPANY

**Features:** For permanent support when cable end is not available.

**Construction:** Material is nonmagnetic, tin-coated bronze for exceptional immunity to rust and corrosion with superior strength and flexibility.

**Design Criteria:** Solid eye assemblies provide reinforcement at support hardware. The positive action mesh grip is designed for standard duty, split grips wrap around the cable mid-span.

Part #	Loop Length	Grip Length	Breaking Strength, lbs. (N)	Operating Range	Material
GRIP12	7"	10"	530 (2,357)	0.5" - 0.62"	tin-coated bronze
GRIP78	9"	14"	1,610 (7,161)	1.00" - 1.24"	tin-coated bronze
GRIP114	10"	15"	1,610 (7,161)	1.25" - 1.49"	tin-coated bronze
GRIP158	14"	19"	2,150 (9,563)	1.75" - 1.99"	tin-coated bronze
GRIP214	16"	21"	3,260 (14,500)	2.00" - 2.49"	tin-coated bronze
